**Statement on EU REACH Chemicals Regulation (Reg. (EC) No1907/2006)
(Updated January 22, 2025)**

JFW has reviewed the REACH regulations and has determined that JFW products and component parts do not contain any of the "Substances of Very High Concern" (SVHC) in a concentration above the 0.1% by weight allowable limit. JFW complies with the current exemptions granted by Directive 2015/863/EU, specifically 6(c).

JFW has contacted their suppliers (both manufacturers and distributors) to confirm that 1) they are aware of the regulations and the SVHC list and 2) that they will notify JFW if they do use any of the substances on the list.

As of January 22, 2025, there are 247 substances and new substances are added to the SVHC list on continual basis. JFW will monitor updates to the SVHC candidate list and is made aware of the addition of new substances through a subscription to the ECHA Newsletter. If it becomes required then JFW will seek the required registration.

A handwritten signature in blue ink that reads "Roberta Ogden". The signature is written in a cursive, flowing style.
