JFW's Quality Policy

"JFW is committed to anticipating and exceeding customer's requirements and expectations through cost-competitive, quality products and services that are delivered on time and through continual improvements to our quality management system."

## JFW's Standard Terms and Conditions

JFW Industries, Inc. has standard terms of Net 30 days with approved credit.
Alternate methods of payment include MASTERCARD, American Express, VISA, COD or ADVANCE PAYMENT. International Payment Terms are ADVANCE PAYMENT or MASTERCARD, American Express and VISA. Any other payment terms must be negotiated in advance.
Shipping terms are FOB JFW Ind for Domestic Customers and FCA JFW Ind for International Customers. ALL SHIPPING CHARGES will be PREPAID and ADDED TO THE INVOICE or SHIPPED COLLECT VIA YOUR DESIGNATED FREIGHT CARRIER.

## JFW INDUSTRIES WARRANTY

JFW PRODUCTS ARE WARRANTED AGAINST DEFECTS IN WORKMANSHIP AND MATERIAL UNDER NORMAL USE AND SERVICE AS FOLLOWS: (2) TWO YEARS FROM DATE OF SHIPMENT FOR ALL FIXED AND SOLID STATE PRODUCTS. (1) ONE YEAR FROM DATE OF SHIPMENT FOR ALL MECHANICAL AND ELECTRO-MECHANICAL PRODUCTS. JFW INDUSTRIES' ONLY OBLIGATION UNDER THIS WARRANTY IS TO REPAIR OR REPLACE, AT ITS FACTORY, ANY JFW PRODUCT OR PART THEREOF THAT IS RETURNED TO JFW INDUSTRIES BY THE ORIGINAL PURCHASER WITHIN THE WARRANTY PERIOD.

THE WARRANTY STATED ABOVE IS YOUR SOLE AND EXCLUSIVE WARRANTY AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR FITNESS FOR ANY PARTICULAR PURPOSE. JFW INDUSTRIES SHALL NOT BE LIABLE FOR ANY DIRECT OR CONSEQUENTIAL INJURY, LOSS OR DAMAGE INCURRED THROUGH THE USE, OR INABILITY TO USE, ANY JFW INDUSTRIES PRODUCT.

## Programmable Attenuator Assemblies

- Single or multiple programmable attenuators
- 19" rack or benchtop packages
- Remote control via Ethernet, RS-232 or GPIB
- Front panel manual control available

4 attenuators
$10 " \times 10 " \times 4.5$ " benchtop enclosure

4 attenuators
2RU 19" rack enclosure

Visit www.jfwindustries.com/PA for model numbers.

## Programmable Attenuator Assemblies

## Mini Benchtop Series

- Economy series with simplified front panel control
- Visually monitor attenuation settings on all ports
- Can manually perform handovers via front panel toggle switches
- Available with 1, 2, 3 or 4 attenuators
- Remote commands and GUI identical to 19" rack models
- Frequency coverage $30-3000 \mathrm{MHz}$ or $200-6000 \mathrm{MHz}$

1 attenuator - N Connectors 6.75 " x 6.75" x 3.25" benchtop box Also available with SMA connectors.

2 attenuators - N Connectors 9" x 9" x 4" benchtop box Also available with SMA connectors.

4 attenuators - SMA Connectors
9" x 9" x 4" benchtop box

## Visit www.jfwindustries.com/BA for model numbers.

## Handover Systems

## Full Fan-Out

- Allows for simultaneous testing of multiple devices
- Cost scales with number of programmable attenuators

## LC (Limited Fan-Out Configuration)

- Lower cost due to fewer attenuators (3 vs 9 for full fan-out in this example)
- Used for testing multiple devices in parallel

## Manual Handover Systems

Manual versions using rotary attenuators instead of programmables are also available.

Visit www.jfwindustries.com/Handover for model numbers.

## RF Switch Assemblies

- Assemblies can contain a single switch or a bank of switches
- Switches can be solid-state or electro-mechanical
- Assemblies can also include other components, such as programmable attenuators or power dividers

(2) 1P4T solid-state 50 Ohm switches 2RU 19" rack enclosure

(8) 1P4T electro-mechanical switches (DC-18 GHz)

Expandable to 12 switches 3RU 19" rack enclosure

(10) 1P4T solid-state 75 Ohm switches 4RU 19" rack enclosure

Visit www.jfwindustries.com/SA for model numbers.

## Matrix Switches

## Common Highway Matrix Switches

- One active path
- Very cost effective

## Blocking Matrix Switches

- Multiple active paths. Number of active paths determined by the lesser of the \# of inputs or outputs. So for a $4 \times 8$ Blocking Matrix Switch, there would be a maximum of 4 simultaneously active paths

## LC Blocking Matrix Switches

- Multiple active paths. Number of active paths determined by the size of the matrix
- Additional switches increase the maximum number of inputs and outputs
- Less costly than a standard Blocking Matrix Switch with the same number of ports

[^0]
## Non-Blocking Matrix Switches

## Non-Blocking Matrix Switches

Super-Non-Blocking Matrix Switches

| Size | Interconnects |
| :---: | :---: |
| $2 \times 4$ | 8 |
| $4 \times 4$ | 16 |
| $4 \times 8$ | 32 |
| $8 \times 8$ | 64 |
| $8 \times 16$ | 128 |
| $16 \times 16$ | 256 |
| $16 \times 32$ | 512 |

Matrix switch costs scale with the number of interconnects

Visit www.jfwindustries.com/MS for model numbers.

## Transceiver Test Systems

Full Fan-Out

Variation 1: Unconnected Pairs

6 input transceiver test system
Each block of 2 ports do not need to interconnect 12 attenuators

Visit www.ffwindustries.com/PMA for model numbers.

## Transceiver Test Systems

Variation 2: Separate Tx \& Rx

6 input transceiver test system
Testing 3 radios with separate Tx and Rx ports
6 attenuators

8 port Transceiver Test System
28 programmable attenuators
5RU 19" rack enclosure

[^1]
# Transceiver Test Systems with RF Hubs 

## 1 RF Hub

Configurable with 2 RF Hubs

Visit www.ffwindustries.com/PMA for model numbers.

## Other Products

## Control Boxes

Used to interface with multiple JFW programmable attenuators or RF switches

Panel Mounted Rotary Attenuators
(8) rotary attenuators mounted in a 2RU 19" rack panel

Panel Mounted Power Dividers

## Attenuator Assemblies

(4) 100W fixed attenuators in a $2 R U$ 19" rack box

## Custom Test Systems

## Available Features

Custom Enclosure

Block Diagram on Front Panel w/ LED indicators

Custom Labeling \& RF Connector Placement

## amplifiers circulators diplexers filters couplers limiters

## Usage of non-JFW components

Our custom test boxes can include many components that JFW does not manufacture.

## Remote Commands

See firmware manual for a list of all remote commands.

| System Commands |
| :---: |
| Identification |
| Help |
| Serial |
| Net |
| Close |
| Disconnect |
| Reboot |
| Date |
| Uptime |
| MOTD |
| Name |
| Show Users |
| Message |
| Prompt |
| Store |
| Recall |

| Attenuator Commands |
| :---: |
| Set Attenuator |
| Read Attenuator |
| Set All Attenuators |
| Read All Attenuators |
| Fade Attenuator |
| Block |
| Set Block |
| Read Block |
| Read All Blocks |
| Fade Block |
| Set Path |
| Read Path |
| Read All Paths |

| Switch \& Matrix <br> Commands |
| :---: |
| Set Switch |
| Read Switch |
| Set All Switches |
| Read All Switches |
|  |
| Set Input |
| Set Output |
| Read Input |
| Read Output |
| Read Matrix Paths |

## Command Examples

## Setting an attenuator:

SA $210<C R>$
Set attenuator 2 to 10 dB
SA 5 63<CR>
Set attenuator 5 to 63 dB
Reading an attenuator:
RA $1<C R>$
Read attenuator 1
Atten \#1 = 127dB<CR><LF> Response from system

## Setting a switch:

SS 2 4<CR>
Set switch 2 to port J4
SS $51<C R>$
Set switch 5 to port J1

Reading a switch:
RS 1<CR>
Read switch 1
Switch \#1 = J2<CR><LF>
Response from system

## GUI

## Default Interface Settings

- RS-232 port set at 57600 Baud, No flow control, 8 data bits, 1 stop bit, No parity
- Network interface set to DHCP mode
- No login password required for Serial or Network connections
- Prompts are turned off

## Firmware Features

- DHCP capable
- Ethernet and RS-232 interfaces run simultaneously
- Multi-Threaded command process (i.e. non-blocking architecture)
- Up to 12 simultaneous Ethernet connections to the test system
- User configurable command line prompt
- Remotely accessible help files with command syntax and examples
- Command options such as Max dB (-M), Step Size (-S), Lock (-L), Block (-B), and Verbose (-V)
- The ability to escape out of erroneous Pause, Fade, and Handover commands
- Date feature that allows for time tracking with timestamp command option
- User comments can now be added to script files without interfering with script execution

## Additional Info and Support

Many interactive tools can be found on JFW's website.
www.jfwindustries.com

## Some samples include:

- Find detailed specifications and drawings
- Requests new quotes
- Email engineering
- Answers to frequently asked questions
- Download an RF Conversion Tool
- Download firmware manual

## New Products

## ATTENUATOR SYSTEMS FROMJFW SHIP IN 4 WEEKS OR LESS

JFW Industries is pleased to introduce our newest line of Ethernet-Controlled RF Attenuation Systems. This latest series of programmable attenuator assemblies is available in varying frequencies (as low as 30 MHz or up to 6 GHz ), in 95 dB or 127 dB of dynamic range (in 1-dB steps), and with SMA or N connectors.

AND, IT'S ALL GUARANTEED TO SHIP IN 4 WEEKS.
Custom designs available.
(May affect lead time.)

## CONFIGURABLE POWER DIVIDER for LAB USE

JFW is pleased to introduce our latest innovation in RF Test equipment.
The 50PDA-150-XX is a completely new approach to laboratory power divider assemblies. Its modular design can be specified at the time of order to include any number of combiner configurations. Each interchangeable module may include four 2-Ways, three 3-Ways, two 4-Ways, or one 8-Way (each assembly holds up to fourteen modules).
